## CAREER SUMMARY

**A Computer Engineering Undergraduate** I specialize in extracting actionable insights from complex datasets to drive informed business decisions. With a keen eye for detail and a passion for problem-solving and learning, I excel in uncovering trends, identifying opportunities, and optimizing processes. Leveraging advanced analytical techniques and cutting-edge tools, I am committed to delivering valuable solutions that positively impact organizational performance. I'm very big on team work and collaboration, and through clear communication, I aim to empower teams with data-driven strategies that drive growth and innovation.

## SKILLS

- Data Analytics
- Machine Learning
- Team Work
- Adaptability

## PROFESSIONAL EXPERIENCE

### Data Management and Business Intelligence Intern

Galaxy Backbone LTD.

[MAR - AUG 2024]

- Managed and analyzed data, ensuring accuracy and consistency across datasets. I collected data from various sources, organized it effectively, and utilized analytical tools to derive meaningful insights. This work supported decision-making processes and contributed to the overall data strategy of the organization.

### Intern

Griot Studios.

[JAN - MAR 2021]

- Sorted, organized, and maintained files while gathering and inputting data into a digital database. I also distributed office supplies and files for staff and managed incoming calls, answering and transferring them while taking messages for various team members.

### Intern

Cyberlogik Solutions.

[JUL - DEC 2020]

- Assisted in industry trade shows by interacting with consumers and answering questions, while liaising with clients to assess their needs and respond to inquiries. Additionally, observed packaging operations to ensure conformance to specifications and enhanced production of various products to exceed goals.

## EDUCATION

- B.Eng (Computer Engineering)- Nile University Of Nigeria. [2021-2025]

## TOOLS

- PostgreSQL
- Pandas
- Python
- Git
- GitHub
- Vercel
- Excel
- Tableau
- Numpy
- Seaborn
- Matplotlib
- Google Sheets
- Jupyter
